<TEXT>I do not want to pay more for my telephone service! I urge
you to reject a flat fee proposal that would change how
contributions are made to the Universal Service Fund. I am
concerned that this proposal could make my current service
unaffordable.

Under the flat fee proposal you are considering, people who make
few long distance calls would pay the same as people or
businesses that make many calls. In other words, low-volume and
primarily residential customers would bear the same universal
service fund burden as a high-volume residential or business
customers. This is unfair!

I use my wireless phone for safety, security and convenience. I
don't want to lose these benefits so that big businesses can pay
less than their fair share. I urge you to reject the proposal to
move the USF collection system to a flat-fee.

Remember what happened when then Gov. Gray Davis introduced the
bill that raised car registration fees? Registration fee
quadrupled overnight. Before current Gov. Schwarzenegger could
repeal that bill, the CA. state population dropped. We're
getting fed up with CA. politics. Try to get Ca. gov.'t to move
on something. CAN'T DO IT! They'll gladly accept your money,
though. Please don't follow suit with CA. Haven't we paid
enough? Jobs are already leaving the country. Keep it up, & the
people will go with them. Keep the USF Fair!

Sincerely,

timothy martin
